

## Stop Slip

### Stop Slip

#### Description

**Stop Slip** is a unique traction treatment product that helps to prevent slips and falls on quarry, porcelain and glazed ceramic tile floors in kitchens.

#### Key properties

**Stop Slip** is an unique patented product that combines traction treatment capabilities with surfactants and cleaning agents. These cleaning agents help break down the grease and oils that are found deep in the floor and make the floor slippery.

The traction treatment ingredient provides a microscopic texture to the tiles surface, helping to create a non slippery floor.

#### Benefits

- Unique patented formula
- Traction treats the floor without long term damage
- Assist traction treatment by removing in ground grease and dirt
- Leaves workspace safer for employees and customers

#### Use instructions

Once a month or spot treat slippery areas as needed

1. Wipe up spills and sweep debris from floor surface
2. Apply **Stop Slip** undiluted in area to be treated
3. Evenly spread the product across the surface using brush or mop. Allow to remain on the floor surface;
  - a. For quarry tiles, 20 minutes
  - b. For glazed, ceramic and porcelain tiles, 40 minutesDO NOT ALLOW to dry on surface
4. Remove soiled solution by mopping, squeegee to drain or vacuum pick up
5. Rinse floor thoroughly and pick up rinse solution
6. Dry floor surface using a dry mop or squeegee. Allow the floor to dry thoroughly before allowing traffic.

Note: the use of **Stop Slip** on porcelain and glazed tiles will create a duller surface.

#### Technical data

Appearance:	Clear orange liquid
Neat pH:	3.5
Relative Density (20°C)	1.02

These figures are typical values and should not be interpreted as specifications.

#### Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet.

Store in original container. Avoid extremes of temperature.

## Stop Slip

### Product compatibility

**Stop Slip** is not recommended for use on polished or unpolished marble, or terrazzo with marble chips. If product gets on Aluminium, remove promptly with a clean wet towel.
