

Temp-Proof 333

> Protection against heat and steam, along with inner polymer to protect against oils, greases and hydrocarbons

- Excellent thermal insulation in wet, oily or steamy conditions
- Good resistance to oils, greases and hydrocarbons

Other industries

- Boiler room work
- Handling of hot steel after welding
- Heat treatment up to 250°C (autoclaves, etc.)
- Steam cleaning
- Steel quenching

Rubber industry

- Vulcanization, demoulding, forming, etc.

Cat. 2

2332

X2XXXX

12X

Temp-Proof	333
Material	Nitrile
Length (inches)	12.5
Thickness (inches)	Heavy Wt.
Wrist	-
Colour/Color	Black
Interior finish	Knitted thermal protection
Exterior finish	-
Size / EAN	9
Packaging	1 pair/bag - 6 pairs/bag - 12 pairs/carton
